

Welcome to the first joint educational meeting organised by the North of England Paediatric Anaesthetic Network in conjunction with Child Health Education and Revalidation. We hope you'll enjoy the content of the day, and the opportunity to meet others from our allied paediatric disciplines.

After a morning of cross-specialty lectures, the first session of the afternoon has two parallel streams of lectures loosely themed by specialty. We hope you will take the opportunity to move between streams if desired according to your interests. We will link up once again for the final session of the afternoon.

We welcome any feedback you can give us about the day, and especially on the range of topics you would wish to see covered at future meetings of this type. Feedback for the meeting is essential for the process of being awarded CME points by the Royal Colleges, and you will receive a SurveyMonkey link during the day for this. Attendance certificates will be e-mailed to delegates on receipt of feedback.

Take time to tweet on NEPAN's new twitter page;  @NEPANUK

Thanks go to CHER for their help in organising the day.

We hope you enjoy your day, and wish you a safe journey home.
